**WELCOME TO IIT DELHI**

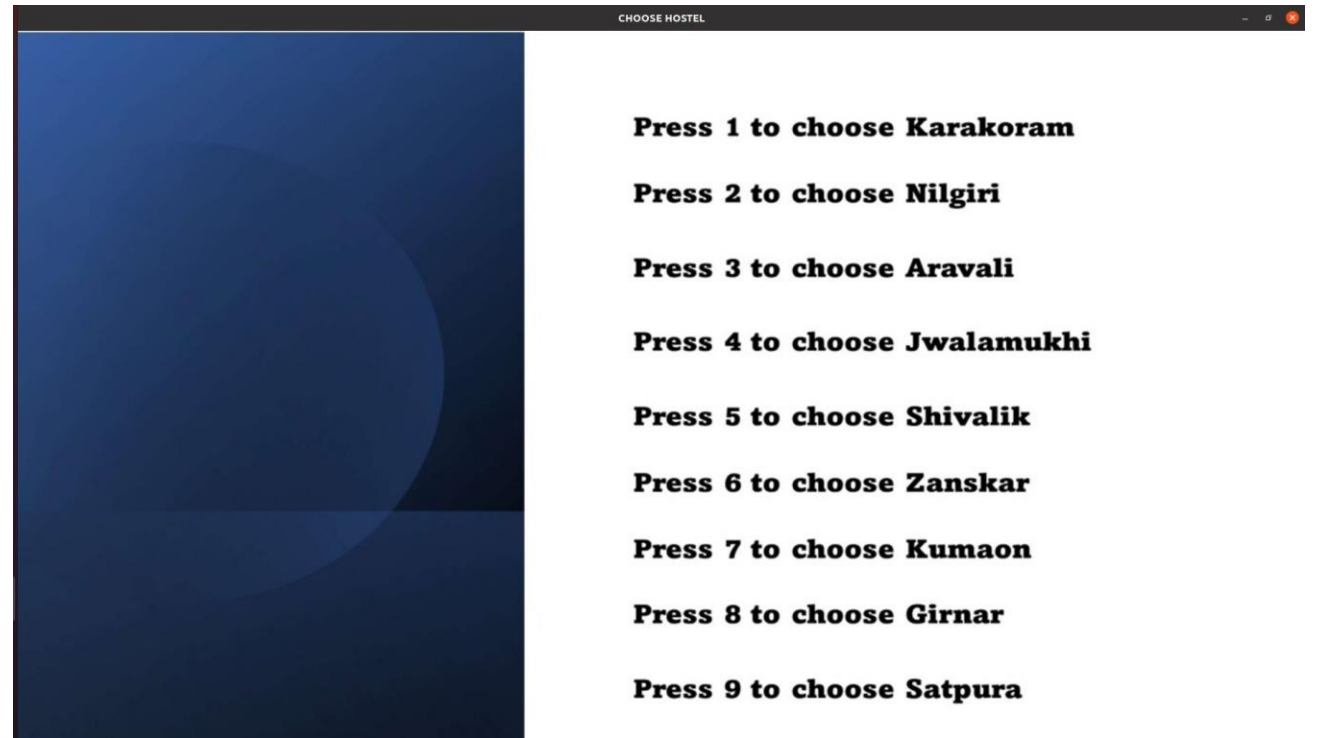

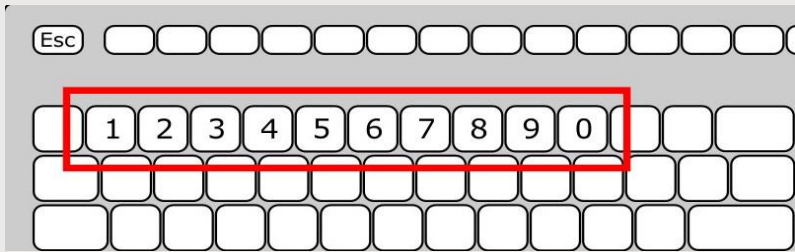

**START**

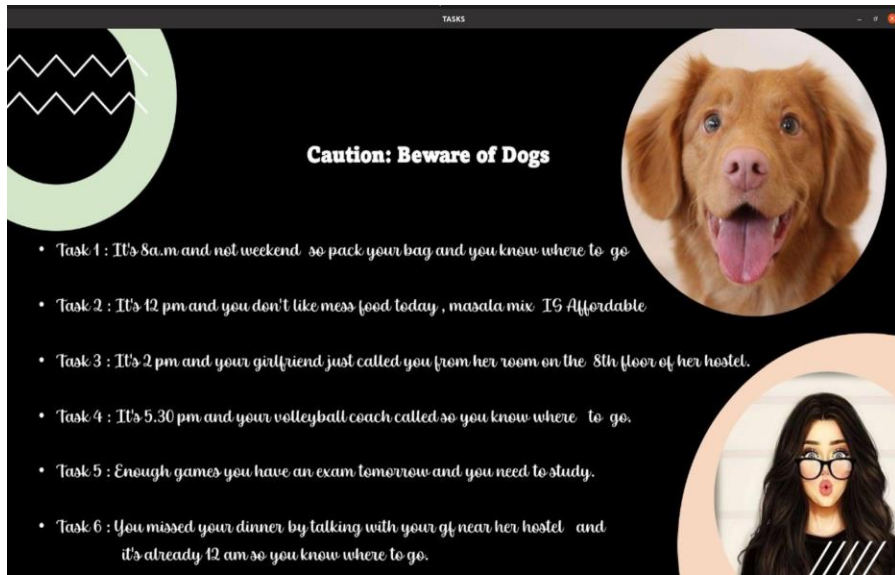

## GAME RULES

CLICK ON START BUTTON TO BEGIN THE GAME  
AND ENTER TO FACE CHALLENGING TASKS.

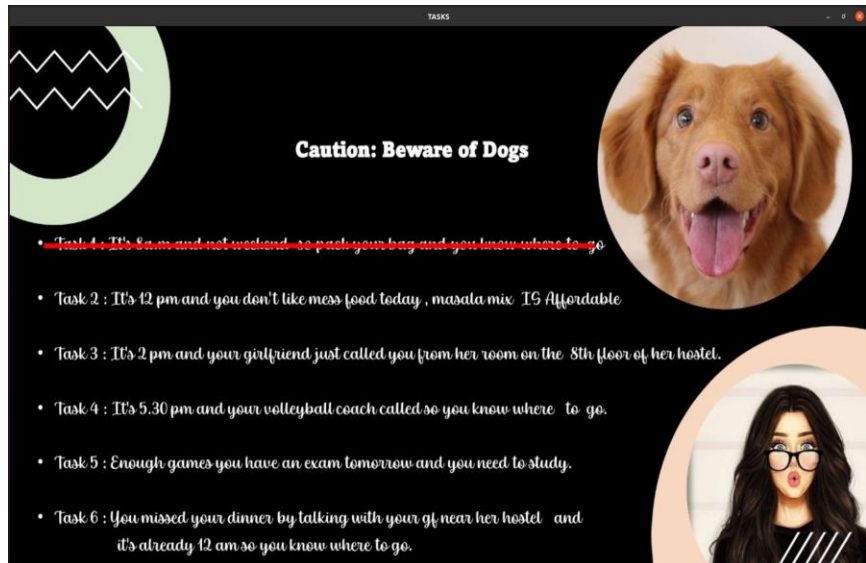

*You can start the game from any hostel by entering corresponding number key and you don't know from which hostel you can do your tasks fast so best of luck before choosing hostel*

After choosing the hostel enter key "T" to know your tasks. After you enter key "T" a task table will appear showing your tasks and once you completed your task the task will be striked with a red line indicating that it was completed. To close the task window press "esc" button then the task window will close and game starts continuing. To complete the game, the tasks should be done in the given order.

For completion of task enter number key "0" whenever you reach the task completion place. you will get a score of **100** for completion of each task.

For single player-the player score, health and initial available money will appear as shown.

Initially the health will be 5 hearts and money of value 500.

fig1

The score of the other player will appear below the score card of the user. If player1 score is 100 and player2 score is 0 then for player1 the score appears as in fig1 and for player2 it appears as in fig2

fig2

For multiplayer game-The second player position for the user player will appear as a location symbol as shown in the image below

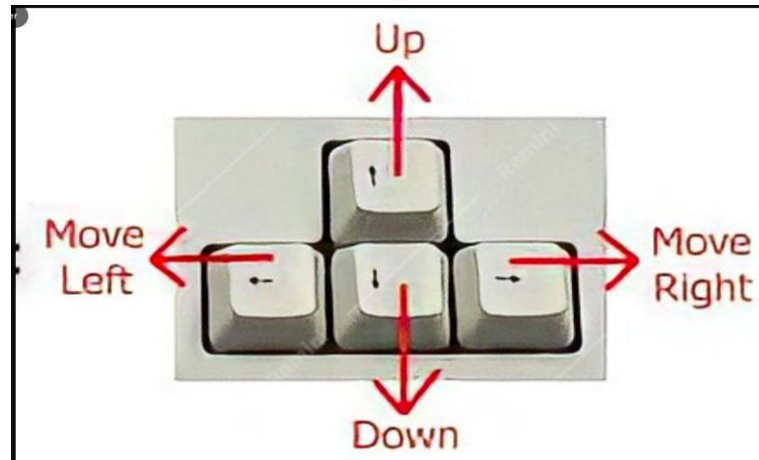

## Control Keys for the movement of person :-

Left arrow - person moves towards left

Right arrow - person moves towards right

Up arrow - person moves forward

Down arrow - person moves backward

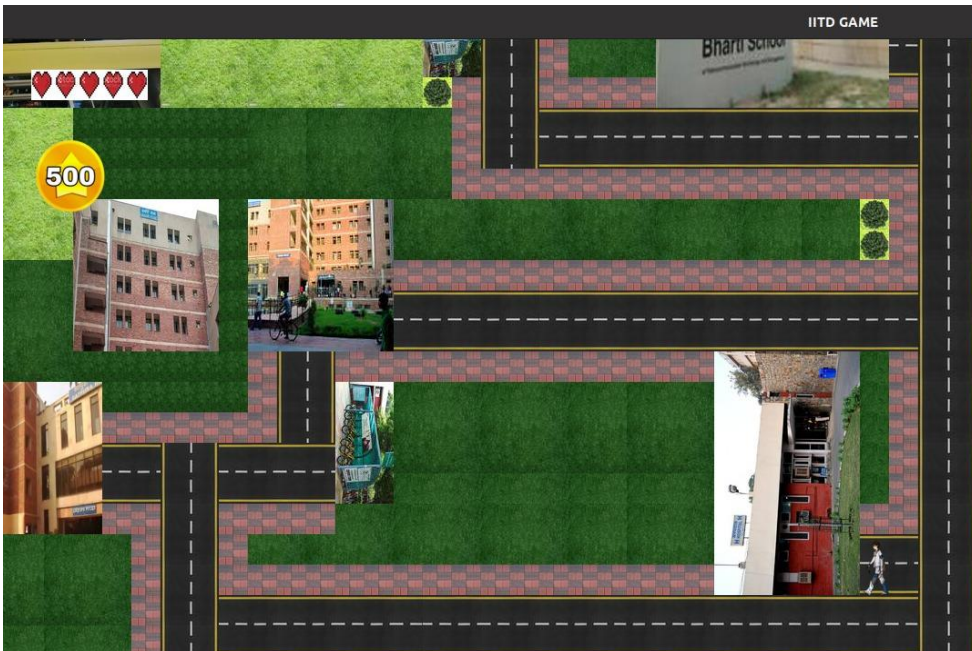

*Suddenly can't able to find where you are? Or want to know your location?*

Don't worry just press the key "M" then the map window will appear showing your exact location on the map by a red cross mark. Now you know your location and move on the way to reach your task. Don't forgot to press "esc" to close the map window and resume the game.

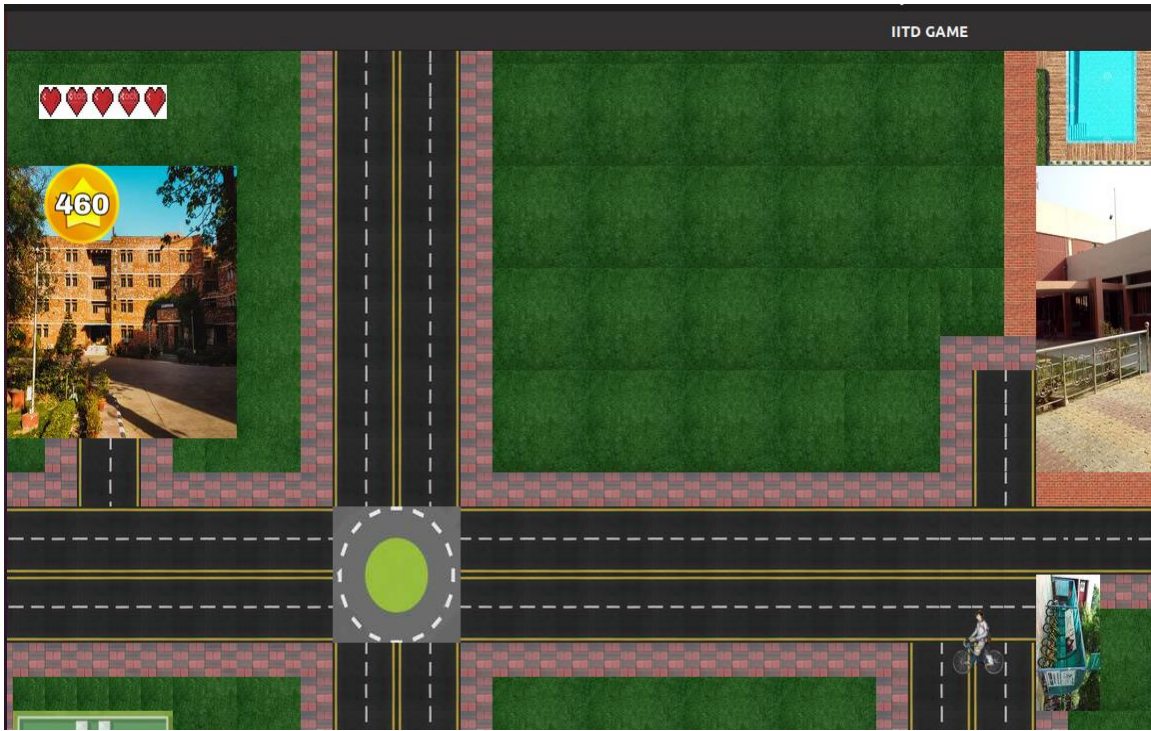

Beware of dogs, if you got bite by dog then your health will decrease. There is a hospital facility in IITD where you can go and regain your health.

To regain health go to hospital where you can get treatment for dog bite by entering key "0".

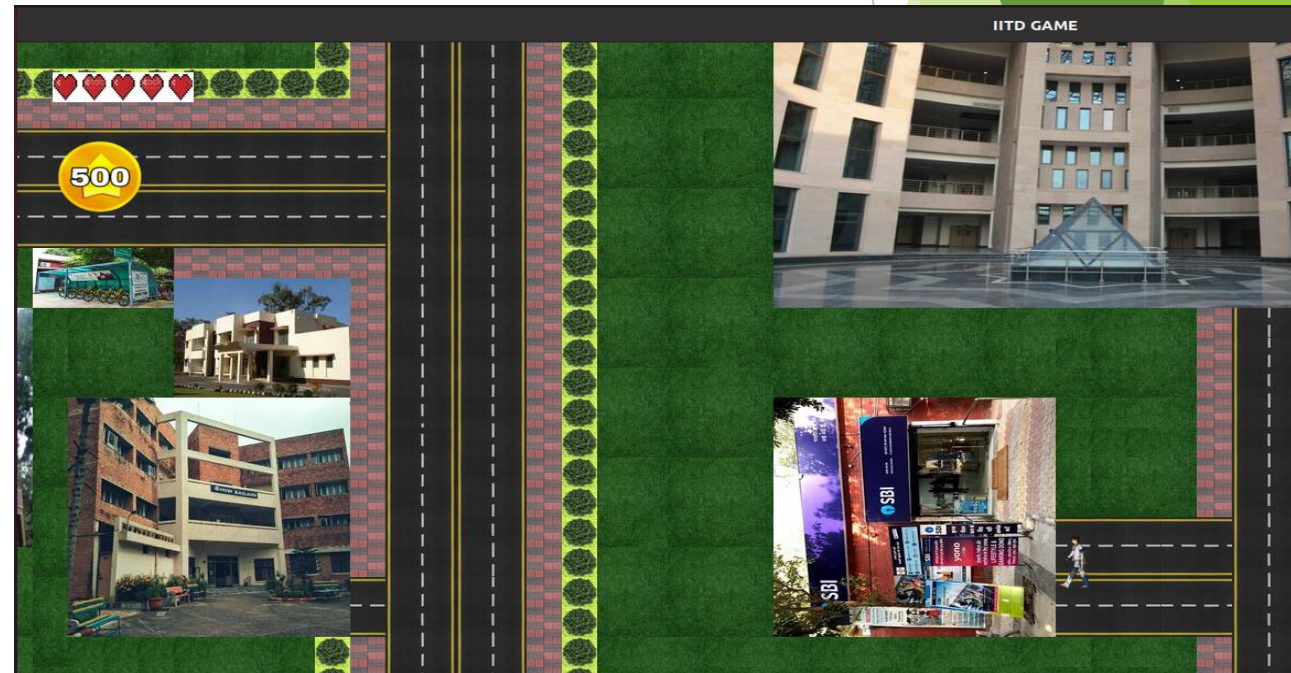

Riding on yulu costs money. Once your money went to zero then you can't ride yulu. If you want to earn money then go to SBI at LHC and press number key "0" then your money will be refilled again to **500**.

Want to complete your task fast by increasing your speed?

Don't worry you have yulu present at yulu stands by taking which your speed becomes twice walking speed.

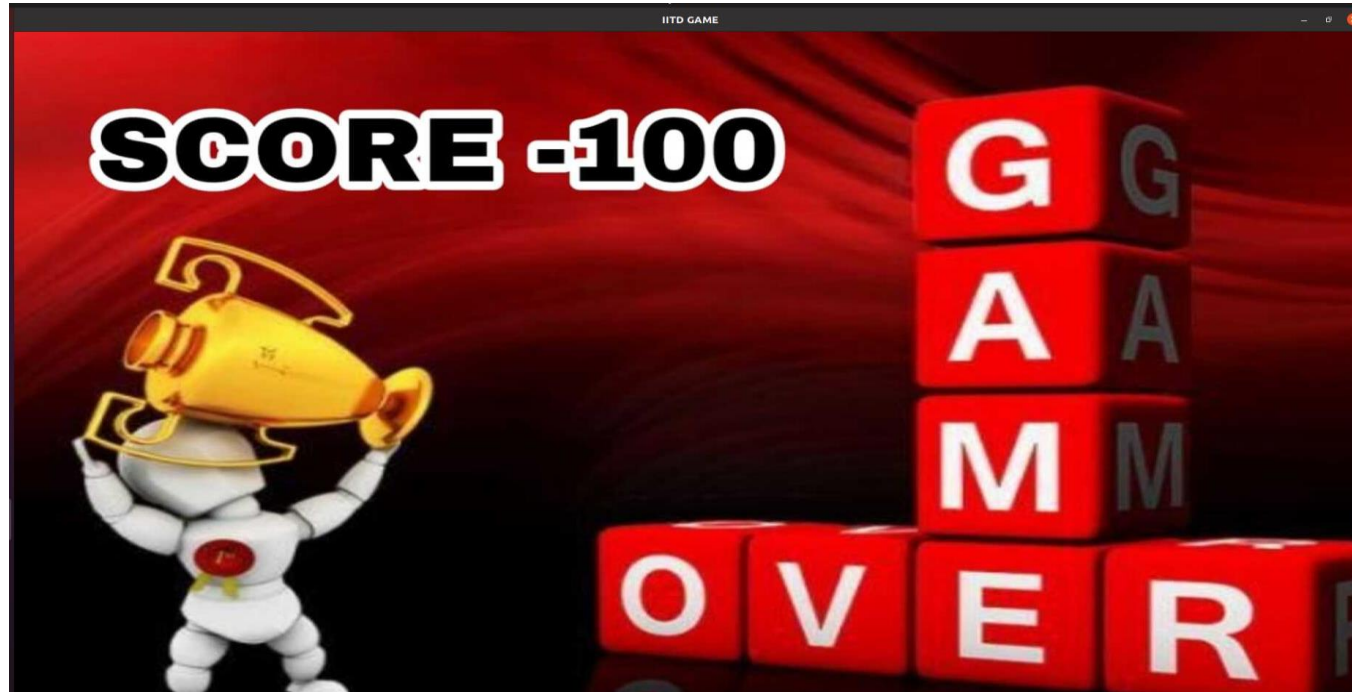

You can take or release yulu by going near to the yulu stand and press number key "0".

Note: You can take or release yulu only at yulu stands, it's not possible at other locations.

# GAME OVER

The game will be over once you completed all your tasks or you lost all your health because of dog bites. Once the game gets over then a score card will appear showing your overall score in the game.

**Thank you**
